

Retraction of the Paper Entitled “Near-invariant Tori on Exponentially Long Time for Poisson Systems”

Fuzhong Cong

I mistook the paper entitled “*Near-invariant Tori on Exponentially Long Time for Poisson Systems*” for an unpublished one before submission to Journal of Nonlinear Modeling and Analysis, and it was published on 2019,1(3):385-395. I just discovered that the paper had been published elsewhere before, so I decide to retract it. I apologize for my mistake and the inconvenience brought to the journal. I will examine carefully in the future.
